DETAILED ACTION

Continued Examination Under 37 CFR 1.114

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8/31/2007 has been entered.

Acknowledgments

2. This office action is in response to the reply filed on 8/31/2007.
3. In the reply, the Applicant amended claims 1 and 2.

Election/Restrictions

4. Claims 1-19 are directed to an allowable product. Pursuant to the procedures set forth in MPEP § 821.04(B), claims 20-22, directed to the process of making or using an allowable product, previously withdrawn from consideration as a result of a restriction requirement, are hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Because all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, **the restriction requirement as set forth in the Office action mailed on 10/19/2005 is hereby withdrawn.** In view of the withdrawal of the restriction requirement as to the rejoined inventions, applicant(s) are advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the

limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application. Once the restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Thus, claims 1-22 are pending for examination.

Cited Pertinent Prior Art

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. 6171287; 6908459; 5203775; 7033339; 5470319.

Allowance

6. Claims 1-22 are allowed.

7. The following is an examiner's statement of reasons for allowance:

8. The subject matter of the independent claim could either not be found or was not suggested in the prior art of record. The prior art does not disclose or render obvious the combination as claims specifically including a needleless port having a septum forming a passageway between a top and bottom surface and having a main body having a cross-section in a direction orthogonal to the passageway having an external dimension with a length direction larger than a breadth, or width, direction, a slit originating at the top surface of the septum and extending downward from the top surface, the slit extending in the length direction, and a bore extending from the slit to the bottom surface of the septum prior to insertion of an insertion member, the bore having a spindle shaped lateral section whose major axis extends in the length

direction, and compression ribs formed on the external surface of both sides of the main body in the breadth direction in combination with other elements of the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew M. Gilbert whose telephone number is (571) 272-7216. The examiner can normally be reached on 8:30 am to 5:00 pm Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Kevin Sirmons can be reached on (571)272-4965. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
